

## Summary of Operative Experience

*(Remarks: Programme Directors of respective Specialty Boards will conduct random check of the trainee's Logbook Summary and Logbook Summary Report against the operation data from the Hospital Authority. The College reserves to take appropriate action should any untrue reporting of data was found.)*

### Record Nature of Cases

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Aortic Surgery</b>						
Thoracic and abdominal aneurysm, aortic dissection, open and endovascular, in both elective and emergency setting						
Aorto-iliac occlusive disease, open and endovascular						
Infected aortic graft surgery						
Trauma major vascular exposure						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Lower limb revascularization Procedures</b>						
Open surgery						
Common femoral artery procedures infrainguinal bypass, infected bypass graft surgery						
Endovascular						
Angioplasty / stenting of iliac, SFA, popliteal and below the knee arteries						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Carotid artery intervention</b>						
Carotid endarterectomy						
Carotid artery stenting						
Carotid subclavian bypass/Cross carotid Bypass						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Emergency peripheral arterial surgery</b>						
Femoral / brachial embolectomy						
4 compartment fasciotomy						
Control and repair of false aneurysms of femoral /radial arteries						
Decannulation of ECMO catheters with vascular repair						
Vascular trauma						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Amputation and debridement</b>						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Varicose vein surgery</b>						
Sapheno-femoral and sapheno-popliteal ligation						
Endovenous LSV and SSV ablation						
Injectional sclerotherapy						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Deep vein intervention</b>						
Mechanical thrombectomy / catheter direct thrombolysis + ilio-femoral vein stenting						
Caval filter insertion/removal						
Central vein occlusion: angioplasty / stenting						
Other - specify						

	Surgical access if applicable		Total	Surgeon Mentor Scrubbed	Surgeon Mentor Available	Assistant
	Open	Minimal access				
<b>Haemodialysis vascular access surgery</b>						
AVF creation						
AVG creation						
Access maintenance: angioplasty / stenting						
Access salvage: thrombectomy (open / endovascular), re-do surgery						
Central vein occlusion: angioplasty / stenting, bypass surgery						
Access aneurysm surgery						
Dialysis access steal syndrome surgery						
Explant of infected AV graft						
Other - specify						

I declare that the information in this logbook summary report is true and correct.
